

# Guide for English Language School Students

You need to be aware that between Monday 23 March and Friday 3 April the teaching of Prep Term 33 courses will be completed online.

Students need to work independently through all course materials.

Students need to learn all vocabulary and skills that are set out in the course documents.

Students need to prepare for the Term 33 exams, which are currently scheduled for 13/14 April. (Note that if the three-week suspension of on-campus teaching is extended past 6 April then the Term 33 exams will be postponed, but for the moment we plan to hold them.)

To help students complete Term 33 and to prepare for the Term 33 examinations your instructors will:

1. Give feedback on all work that you submit for Writing, LA and Speaking: Writing assignment drafts; Speaking recordings; LA practice sentences;
2. Produce some introductory/teaching videos to help you understand the new topics;
3. Set up extra Discussion Forums.
4. Online classes will be held: before each online class your instructor will inform you of a link to a class meeting on an application called ZOOM. It is very easy to access by computer or smartphone.
