

UNIVERSAL TENSION – COMPRESSION TESTING MACHINE

Intended Use of the Instrument: Tensile and Compressive Mechanical Strength Analysis

Instrument Brand/Model: SHIMADZU AGS-X 10 kN

AGU CRF Thematic Laboratory: Mechanical Characterization Lab

Location of the Instrument: AGU-CRF LAB2

Academic Director(s) of the Instrument:

Assoc.Prof. Dr. Burak BAL-burak.bal@agu.edu.tr

Responsible Specialist(s) of the Instrument:

Res. Assist. Mehmet Fazıl KAPÇI-mehmetfazil.kapci@agu.edu.tr

SCHIMADZU AGS – X 10 kN universal tension-compression testing machine with TRAPEIUM X data analysis software. Crosshead displacement speed is in the interval of 0.001-1000 mm/min with 0.1% precision.
