## ERASMUS TALKS

Our Erasmus Talks program, in which our students who participated in the Erasmus internship and study mobility share their experiences, started in March. Our student Cansu Ünal, who participated in the Erasmus study mobility from the Department of Architecture, and M. Furkan Nargül, who participated in the internship and study mobility from the Department of Electrical and Electronics Engineering, shared their experiences before and after the mobility.

In addition, our students answered the questions of the participants about Erasmus mobility.

Our Erasmus Talks program will continue next semester for the students who want to participate in the Erasmus mobility.

## “GENÇ ATÖLYE” Online Support Program

In the challenging period of the Covid-19 pandemic is spreading, AGU Youth Factory has initiated an Online Support Program. In this program, young people get together online every evening for experience and knowledge sharing. This program aims for young people to support each other.

The online platform is open to all young people, particularly AGU students, where they share their experiences and sometimes interact with invited speakers. All events and activities continued online during the difficult times due to the COVID-19 pandemic and were accessible to young people.

## LOCOMOTIVE SERIES

Youth factory organizes trainings, seminars, projects and big events not only for AGU students but a wider public. Due to its regulations and structure, AGU Youth Factory ensures full access to all its activities.

In the challenging period of the Covid-19, we organized online trainings entitled as "Locomotive Series" on conflict management, entrepreneurship and project management. These series will continue during summer term.

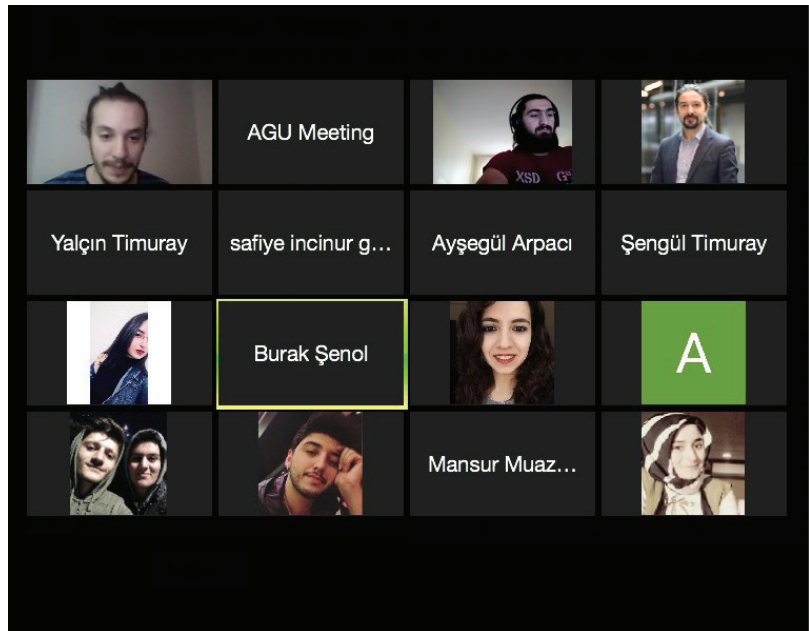

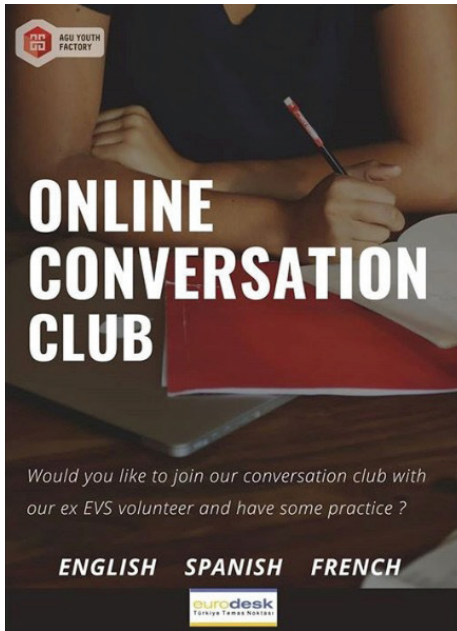

All participants will receive online certificate of participation at the end of the trainings.

## CONVERSATION CLUB

As the AGU Youth Factory, we had a youth work plan supporting the volunteer activities of the local NGO's and public bodies in order to help them develop in youth field, organizing Non-Formal Education Training Courses for AGU students, organizing leisure time activities for AGU students, organizing international symposiums in the youth field.etc.

As part of our EVS (Empowering Youth III) project, our volunteer organized online conversation club on French, English and Spanish languages during COVID-19 period. Our volunteer organized 26 hours courses and 142 students applied for these events.
