

To the attention for our students who start their undergraduate education before Fall 2021

Due to the recent curriculum changes, the ECTS of **CE 102 Exploring Profession and CE 352 Introduction to Transportation and Traffic Engineering** courses in our current undergraduate curriculum have been reduced by 1 ECTS each. Since the courses in question are given with the same codes and names, but with lower ECTS, students who take the courses with low ECTS must take the ECTS difference between them by taking courses with higher ECTS in elective courses or by taking additional elective courses, to complete 240 ECTS in total for graduation. Otherwise, graduation approval cannot be given.

NOTE: You can check the ECTS by comparing the value written in the curriculum you are affiliated with and the value in your current transcripts next to the courses you have taken and by calculating the total of your ECTS.

Lisans Eđitimine 2021 Güz dnemi ncesinde bařlayan đrencilerimizin dikkatine

Son yapılan mfredat deęiřiklikleriyle birlikte gncel lisans mfredatımızda **CE 102 Exploring Profession ve CE 352 Introduction to Transportation and Traffic Engineering** derslerinin AKTS leri 1 er AKTS dřrlmřtr. Sz konusu dersler aynı kod ve isimle ancak daha dřk AKTS ile aıldığından, dersleri dřk AKTS ile alan đrencilerin aradaki AKTS farkını semeli derslerde yksek AKTS li ders olarak ya da ilave semeli ders olarak toplamda mezuniyet iin 240 AKTS yi tamamlayacak řekilde almaları gerekmektedir. Aksi durumda mezuniyet onayı verilememektedir.

NOT: AKTS kontroln baęlı bulunduęunuz mfredatta yazan deęer ile gncel transkriptlerinizde alıp getięiniz derslerin karřında bulunan deęeri kontrol ederek ve AKTS lerinizin toplamını hesaplayarak yapabilirsiniz.
